

URIZAP Shock

Eliminate urinal odours and blockages – FAST

URIZAP Shock is a fast-acting treatment that eliminates blockages and odours within a week—removing the need for rodding, harsh chemicals, or expensive pipe repairs. Its powerful eco-friendly formula, targets the root cause, providing long-lasting results.

One solution, two powerful uses

- 
Fast-track URIZAP maintenance
 Use **URIZAP Shock** to replace the traditional 6-week shock phase of **URIZAP** — clear blockages and odours in just one week, before transitioning to URIZAP for long-term prevention.
- 
Periodic shock treatment for reactive maintenance
 Deploy **URIZAP Shock** as a targeted, high-impact treatment for urinals suffering from limescale, heavy build-up, or persistent odour. Ideal for periodic interventions where deeper cleaning is needed.

Why URIZAP Shock?

-  Results in less than a week!
-  Clears blockages and eliminates odours
-  Non-corrosive and non-toxic
-  Replaces rodding, harsh chemicals & pipework repairs

How do I use URIZAP Shock?

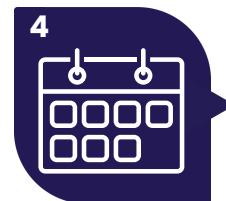

1
Pour 1 scoop directly into the urinal drain.

2
Followed by half a cup of warm water.

3
Leave in place for at least 1 hour, preferably overnight.

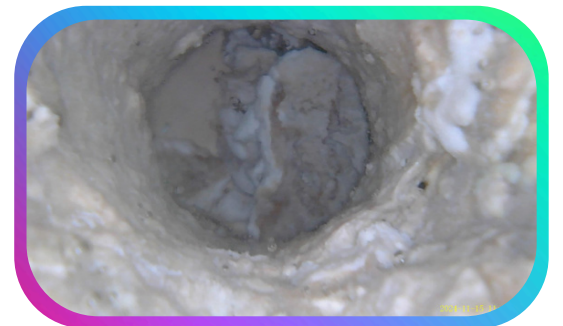

4
Repeat daily dosing for 1 week.

5
Use URIZAP for ongoing deodorisation and maintenance.

Before URIZAP Shock
